

DRAFTSPERSON / DESIGNER

7/21/2016

Freytag & Associates, Inc, an established architectural/engineering firm in Sidney, Ohio is seeking a Draftsperson / Designer. The position will involve:

- Assisting Project Architects in production of schematic, design development and construction drawings.
- Development and coordination of 3-D modeling when appropriate.

Preferred candidate will hold an undergraduate degree in architecture or an associate's degree in construction management with an architectural drafting emphasis/certification; demonstrate proficiency in CAD; and possess an understanding of construction methods and the application to drafting. Construction experience not necessary, but would be a plus. CAD and BIM experience with Graphisoft ArchiCAD preferred.

Interested applicants should email resume to hr@freytaginc.com or mail to P.O. Box 220, Sidney, Ohio 45365.

Freytag & Associates, Inc. is a multi-discipline design firm offering architectural, engineering, interior design, landscape and planning services. While providing services for a variety of building types, Freytag is best known for educational, religious/cultural and historic preservation projects. The firm also serves a variety of governmental and health care clients and assists a commercial client base that requires not only local but national and international projects.

Our office is located on Miami Avenue in Sidney, Ohio in an 1884 restored Victorian home. In 1989, this historic structure was totally renovated to maintain the original character while functioning as a "state-of-the-art" design studio. The structure fosters a cohesive team oriented atmosphere while enhancing the surrounding community. Freytag & Associates, Inc. offers the latest computer technology from preliminary design through construction documents including interactive 3D building generations.
