

Career Opportunity - Graduate Architect

Description

Scholer Corporation, a well-established architectural and engineering firm celebrating our 91st year of practice, is seeking a Graduate Architect for our office in Lafayette, Indiana. The primary duty of this position will be working with our Principals and Project Architects in developing design and production documentation for projects in the fields of education (primary, secondary and higher education), places of worship, civic buildings and renovation of historic structures. This individual will be able to work as part of an interdisciplinary project team of in-house staff and consultants.

Required Skills

- **Design:** Working with other team members develop basic design concepts and ideas to completion with minimal direction and guidance
- **Effective Communication:** Have strong written, oral and graphic communication skills for presentation of design solutions
- **Demonstrates Leadership Skills:** Show initiative in the decision making process and accept professional accountability
- **High Accuracy and Attention to Detail:** Perform work in an organized and efficient manner with a high level of accuracy.
- **Computer Skills:**
 - Proficiency with AutoCAD in the production of design and construction documents
 - Proficiency with SketchUp 3D modeling
 - Microsoft Office: Word, PowerPoint, Excel, Access and Outlook
 - Adobe Acrobat

Required Experience

- Bachelor or Master's degree in Architecture from an accredited university
- 2 - 5 years of experience with experience in education projects preferred
- Applicant should be on track for professional architectural registration

Compensation

Salary commensurate with experience, competitive medical insurance plan, company paid life, AD&D, short-term and long-term disability insurance, vacations and holidays and 401k retirement program

Interested applicants should submit email with resume to Steve Gloyeske at sgloyeske@scholer.com
