

TRINITY

PLANNING • DESIGN • ARCHITECTURE

Trinity is a dynamic organization; we are creative and progressive in our approach to healthcare design. We are the largest master planning and healthcare design firm in Central Ohio, and we have a growing national presence in 35 states. Our team of energetic architects and interior design staff are passionate about designing healing spaces for patients and highly functioning medical facilities for all staff members. Stewardship is at the core of Trinity as we pave the way for new healthcare facilities of the future, leaving a smaller carbon footprint in our world.

We are currently seeking professionals who have a passion for healthcare design and innovation. The successful candidate will have experience working on healthcare projects and have the necessary technical skills which are required such as Revit, CAD, Sketch-Up, InDesign, computer modeling and Microsoft Office proficiency.

Growth and expansion opportunity exists for the following position:

- **Registered Project Architect or on licensure track with 5+ years' experience.**

Qualified applicants should submit a resume and work sample to slind@trinityhealthgroup.com
