

CSO Architects

Career Opportunity- Graduate Design Architect

CSO Architects offers a diverse range of programming, planning, architectural and interior design services. A value-based company focused on providing service with integrity and honesty, CSO Architects has grown to become one of Indiana's largest and most reputable design firms for education, corporate and development, retail hospitality, and community projects.

Description

We are seeking a talented, design-oriented Graduate Architect with 1-5 years experience to assist our lead designers in design, modeling and presentation graphics. Strong knowledge of SketchUp, AutoCAD, Lumion and Photoshop are required, as well as great design skills, solid work ethic and a desire to advance within the firm. This is a great opportunity for a young designer to get involved in the design of many types of projects.

Requirements

Bachelor or Master's degree in Architecture from an accredited university

1 – 5 years relevant architectural design experience

Applicant should be on track for professional architectural registration

Compensation

CSO Architects provides a competitive compensation and benefits program which includes health, RX, dental, vision, life and disability insurance, 401(k) Retirement Plan, PTO and holidays.

Contact

Interested candidates are encouraged to visit www.csoinc.net

Qualified candidates should submit resume via "Careers" on our website, or to Denise Nelson at dnelson@csoinc.net.
