

Job brief

We are looking for a creative, passionate Architect to perform all phases of architectural work including planning, designing and overseeing construction. You will be involved in new building designs, extensions, alterations, restorations and preservation work from the earliest stages right through to completion. The goal is to match client's needs and to produce sustainable, functional, cost effective and aesthetically pleasing designs. We are an award-winning firm with a wide variety of project types. There is opportunity for advancement and possible ownership for the right candidate.

Responsibilities

- Control project from start to finish to ensure high quality, innovative and functional design
- Take the "brief" to identify clients' needs and put together feasibility reports and design proposals
- Develop ideas keeping in mind client's needs, building's usage and environmental impact
- Produce detailed contract documents and make any necessary corrections
- Compile project specifications
- Keep within budgets and timelines
- Ensure that all works are carried out to specific standards, building codes, guidelines and regulations
- Make on-site visits to check on project status and report on project
- Cooperate and liaise with construction professionals
- Follow architectural trends and advancements

Requirements

- Proven working experience as an architect
- Ability to play well with others
- Strong portfolio to prove artistic skills
- Expert knowledge of building products, construction details and relevant codes, regulations and quality standards
- Excellent drawing skills and familiarity with design software (AutoCADD, Revit, Adobe Photoshop, SketchUp, or similar)
- Strong imagination and the ability to think and create in three dimensions
- Visual awareness and an eye for detail
- Communication and project management skills
- Bachelor of Architecture Degree
- Licensed Architect preferred
