

AIA Indiana - AXP Friendly Firm Recognition

Narrative:

Greetings! The AIA Indiana AXP Friendly Firm award is a newly established annual designation approved by the AIA Indiana Board of Directors this year. This accolade aims to provide a clearer, more accessible route for individuals pursuing licensure. Participation in this program is voluntary, and firms have the flexibility to withdraw at any point. It is imperative that firms uphold the policies and practices outlined during their submission throughout the duration of the designation. Applications for the AXP Friendly Firm program will be open annually from **April 1 to May 30**.

Two designations are possible for a firm to receive: the AXP Friendly Firm Designation and the AXP Exemplary Firm Designation.

- AXP Friendly Firm Designation by receiving 8 points or above on the questionnaire.
- AXP Exemplary Firm Designation by receiving 14 points or above on the questionnaire.

AXP Friendly and Exemplary Firms will be recognized at the AIA Indiana Conference, be featured on the AIA Indiana Website, and may use the AXP Friendly Logo or AXP Exemplary Logo for marketing purposes in the year shown on the logo.

A jury will review survey responses and award the 'AXP Friendly Firm Designation' and 'AXP Exemplary Firm Designation' status to firms. The jury will include Emerging Professional representatives from all AIA Indiana sections and an AIA Indiana Executive Board member.

Definitions:

An **AXP supervisor** is the individual who supervises the candidate daily and has professional knowledge of and responsibility for the individual's work. The AXP supervisor must certify that the information the candidate submits on their experience report is true and correct and that the candidate has performed the task competently.

An **AXP mentor** offsets instruction, encouragement, and advice to candidates as they navigate the path to licensure. While this individual does not typically monitor a candidate's experience reports, there are specific opportunities for mentors licensed to practice architecture in the United States or Canada to act as an AXP supervisor.

"**Design Professional**" represents a full-time employee with an NAAB-accredited degree eligible for licensure.

"**Intern**" describes a student pursuing an architecture degree in a NAAB accredited program.

AIA Indiana - AXP Friendly Firm Recognition
