2025 Architects' Home Tour – Call for Entries/Submission Requirements

The AIA of Indianapolis Architects' Home Tour Committee needs your help in identifying homes for the upcoming 2025 Architects' Home Tour. The tour will take place Saturday, October 4th, 2025.

The mission of the 2025 AIA Indianapolis Architects' Home Tour is to demonstrate the value of architects and thoughtful design for residential construction to the general public. The main goal of the tour is to increase the use of architects in residential construction by showcasing those on the tour, as well as to raise funds for AIA Indianapolis.

Submission Requirements

Homes to be included on the tour must be designed by an AIA or Assoc. AIA member.

Types of Projects to be Considered:

- New Homes (completed no later than June 15th)
- Renovated and Remodeled Homes (includes condominiums, duplexes, townhouses, etc.)
- Architecturally Significant Homes

Submission Materials:

- Name and Address of the Home/Residence
- Name of Architect/Designer and Homeowner
- Minimum of one image of both interior and exterior and/or plans and elevations of house.
- Brief description of why home is a good candidate for the tour.

Applications should be sent to Kim Shelley (kshelley@aiaindiana.org).

Selection Process

The homes will be selected through a two-step process. Committee members will review initial submissions and determine a short-list of eligible homes. Following this, short-listed homes will be asked to submit a full Architects' Home Tour application and permit a committee visit of the home. Following the review of all short-listed homes, applicants will be notified of their participation in the 2025 tour.

2025 Architects' Home Tour (AIA Indianapolis) – Submission Application

Home Information

Home Name (if applicable):
