

Studio View Architecture is a dynamic, newly established architecture firm based in a creative studio space in Fortville, Indiana. We specialize in **civic architecture** while embracing a diverse range of project types and budgets—from public buildings and community-focused designs to varied commercial, institutional, and other initiatives. As a young firm, we’re building something special and are excited to bring on talented individuals who want to grow with us from the ground floor.

We’re Hiring: Architectural Designer / Revit Specialist (Entry to Mid-Level)

Location: Fortville, IN (Creative studio environment with inspiring workspace)

Employment Type: Full-time

Experience Level: Open to motivated candidates with strong Revit skills; prior professional experience preferred but not strictly required if you have demonstrated proficiency

About the Role

We’re seeking a passionate architectural professional with hands-on **Revit experience** who is eager to learn and master the art of assembling comprehensive **construction documents** under the guidance of industry leaders. You’ll work closely with experienced architects to produce high-quality sets from concept through construction-ready documents. This is a hands-on position with significant responsibility—you’ll contribute meaningfully to projects, help shape processes, and play a key role in growing the firm.

Key Responsibilities

- Utilize Revit to model, document, and coordinate architectural projects across schematic design, design development, and construction document phases
- Learn best practices for producing clear, accurate, and coordinated construction document sets from seasoned professionals
- Collaborate on diverse project types, including civic/public works, with varying scales and budgets
- Assist in developing details, specifications, and BIM coordination
- Participate in client meetings, site visits, and team discussions
- Contribute ideas to help build and refine firm standards, workflows, and culture as we expand

What We’re Looking For

- Proficiency in **Autodesk Revit** (modeling, families, sheets, annotations, etc.)—proficiency is a must
- Eagerness to learn advanced construction document production techniques from top-tier mentors
- Strong organizational skills, attention to detail, and a collaborative mindset
- Interest in civic and community-oriented architecture (experience is a plus but not required)

- Ability to take on responsibility and thrive in a growing, entrepreneurial environment
- Degree in Architecture (or related field) preferred; professional licensure or progress toward it is a bonus
- Excellent communication skills and a positive, proactive attitude

Why Join Studio View Architecture?

- **Ground-floor opportunity** in a new firm—your contributions will directly influence our growth and success
- Work on a **diverse portfolio** of projects with meaningful civic focus and variety
- Learn from the best in a supportive, mentor-driven environment
- Creative, inspiring studio space in charming Fortville, IN
- High level of autonomy and responsibility early on
- Chance to help build and shape a firm from the early stages

If you're skilled in Revit, hungry to elevate your construction documentation expertise, and excited about joining a fresh, ambitious team, we'd love to hear from you.

How to Apply

Please send your resume, a brief cover letter explaining your interest and Revit experience, and a portfolio (or link to samples of Revit work/construction documents) to Eric Weflen, AIA eric@studioviewarch.com

In your cover letter, tell us why you're drawn to a growing firm like ours and what excites you about producing top-quality construction documents.

Studio View Architecture is an equal opportunity employer.

We look forward to reviewing your application!
